Recognition

- Recipient of The Door to Needle Award from AR SAVES in 2016, the program’s highest honor for achieving the fastest stroke treatment process at a remarkable 38 minutes (compared to the national standard of treatment of 60 minutes).
- Recognized by the March of Dimes for 0% elective deliveries performed prior to 39 weeks estimated gestation for 2015 & 2016.
- Home Health Care Services received the HHCAHPS Patient Satisfaction Award of Distinction in 2013 and the Award of Excellence in 2014 for demonstrating superior performance in patient satisfaction.
- Recipient of Silver Certified National Safe Sleep Leader from Cribs for Kids. JRMC is committed to pro-actively eliminating as many infant sleep-related deaths as possible through sleep safety education and a wearable blanket program.

Major Programs

- **Sleep Center** – 4 bedroom accredited sleep center by the American Academy of Sleep Medicine. It offers state of the art testing to diagnose and treat sleep/wake disorders. It also offers CPAP clinic for patients needing CPAP therapy.
- **Orthopedics** – Comprehensive care for patients with orthopedic needs, including total knee and hip replacements, hand surgery, rotator cuff repair, ACL reconstruction, knee and shoulder arthroscopy, and fracture care.
- **Senior Care** – Provides a short-term inpatient treatment program for adults aged 55 and over who are experiencing behavioral or emotional problems.

- Our **Medical/Surgical** floor offers 40 private patient rooms to meet the needs of all patients from pediatric to geriatric for observation stay, acute stay, and post-operative care. A multidisciplinary team that includes Hospitalists, Family Practice Physicians, Registered Nurses, Licensed Practical Nurses, and Certified Nursing Assistants provides efficient, quality, patient focused care, 24 hours a day.
- Led by UAMS, **AR SAVES** (Stroke Assistance through Virtual Emergency Support) is a telemedicine program that links emergency room doctors in sites across Arkansas to a stroke neurologist via a live, two-way video to ensure that patients can receive the time sensitive care required for great outcomes.
- Partnering with Baptist Health in Little Rock, Arkansas, **eICU** Care provides additional clinical support with constant, 24/7 remote observation and care administered by an intensivist who monitors every aspect of the patient’s condition.
- The **Department of Surgery** provides ENT, Podiatry, Urology, Orthopedics, Gynecology & Obstetrics, and General Surgery, as well as a dedicated area for Endoscopy.
- **Inpatient Physical Rehab** – Helps patients recover from injury or illness and learn the necessary skills to cope and return to their normal routines as quickly as possible.
- **Home Health Care** – Provides care to homebound patients that includes general nursing care, physical, speech, and occupational therapy, and nutritional counseling.
- **Private Duty Nursing** – Offers 1 on 1 care for ventilator dependent patients in their own home. JRMC is 1 of 8 hospitals that provide this service in the state.
- **Women’s Services** – In addition to delivering nearly 340 babies in 2016, we offer mammography services and complete gynecological care.
- **Urology Services** – Surgical specialty which treats diseases of the male and female urinary tract, and the male reproductive system.
